QUANTIC COLLECTION

Born out of creative passion and a love for beautiful jewellery, Melody Armstrong offers the **QUANTIC COLLECTION** - everyday **GLAMOUR** for women everywhere.

Quantic - an integral grouping of consistent parts to create an expressive jewellery form. These great arrangements - arrange great together. This collection is hand fabricated combining the warmth of true bronze and champagne tones with the coolness of the sterling silver and the sparkle of white cubic zirconias. The oxidation really enhances the textures, while the high polishing makes the shiny elements pop. Each piece is made by hand, no two are exactly alike.

Designed to be worn everyday, making you look and feel fabulous and reflecting your own individuality. So much fun to collect, mix & match and layer them up for a modern, stylish, everyday look. Be **UNIQUE** and get **NOTICED!**
